

# Creative Financing to get started in Premier

Where would you find \$1,200 knowing that you could replace it in 90 days or less?

## Here are some suggestions to creatively finance their start as a Premier Designs Independent Distributor:

1. Cash or check.
2. MasterCard / Visa / Discover (or a combination of all three).
3. Charge it on your credit card the day after the credit card statement cut off date. You may have up to 59 days to pay it off with no interest charged.
4. Call your credit card company to increase your credit limit by two thousand dollars or more.
5. Use the "Pre-Approved" charge card that you get in the mail from time to time.
6. 7. Garage Sale to raise the money.
7. Bank Loan.
8. Credit Union Loan (School Teachers can get a \$1,500 unsecured loan).
9. Retirement account – take out and replace within 60 days.
10. 401-K account – borrow up to 50% of account, & take up to 5 years to repay.
11. Borrow against cash in the bank (you owe the bank, not a person).
12. Family loan to be paid in 90 days.
13. 12 Friends borrowing \$100 each and promising to be a hostess—they get paid back show night if the show is over \$250.
14. Cash Value on Life Insurance to be borrowed against.
15. Tax Refund Check.
16. Cash flow the \$1,200 in sum or part through your typical monthly income. Most households are running \$2,000—\$5,000 per month in household expenses and payments. Book and hold shows to pay for your bills as they come up through out the month and pay for your original investment from another household income source. (Second job, spouses job etc.)
17. THE PREMIER CARD! (\$0 Down, & 90 days same as CASH!) Premier's finance program.

YOU can average making \$100 - \$200 or more with every show you have. So if you do 2 shows a week, you can make \$400 a week, and if you work 4 weeks a month, you make \$1,600 a month, or more! This business is an INCOME, CASH FLOW GENERATOR! Let's get YOU started NOW in your own PREMIER DESIGNS business!!!
